“ *Dear pop*

*It's been a while and our birthdays past. We went down there to visit. I know you were with us. Because I didnt have that lost feeling. When we went to the beach it was as if you were right beside me. I want to say thank you I know it was you saying hi when the horses came up to me We havent seen them on the beach like that in years and when the two came right up to me it was like when i was little again. And even though you werent there in sight i took a piece of you with me when i went into the water to catch a wave and remembered a special time we had when you first held my hand to catch my very first wave with you . Now you will always be there in every wave holding my hand. Thank you popop I love you. And miss you so very much##imported-begin##sharon heffelfinger##imported-end##*

“ Pop, Gosh, I dont know where to begin. I miss you so much. I know you are looking down upon us and watching over us. You were such a great man and a great step father. I really wish things were different towards the end. You gave me guidance throughtout my life. And you were a great grandfather to my son robbie as you called him. You stood for respect in my eyes. My husband misses you as well. You were like a father to him as his parents are gone as well. The tears we shed here on earth are many. There will never be another man like you. I pray for the entire family. Sue, dad loved you..He held a special place for all. He was such a giving and caring man. Pop, I miss you so very much. I know you are not hurting anymore and that does make me smile some, but oh how much we miss you. love, Terry and Chris Linton###imported-begin###Chris Linton###imported-end###

“Dad, well it is a week and you have been up in that paradise with God, and I know you are made whole. You are now serving our master. I know that you have nothing but smiles and happiness. I also know that you have been watching down upon all of us and you can now see into my heart and mind and you can now see the love that I have and always have had for you. You know my thoughts and how much I have always respected you and still do. You brought happiness into all our lives and most of all you brought togetherness. Look how big your family here on earth became. Like I always said to you the more the better. You would laugh and say Yea and more confusion when everyone was together at one time LOL. I want you to know that I know we didn't get to spend a lot of time together here on earth but the time we did spend together will always be in my heart and memory. Thank You Dad for all you taught me and for all the love you showed to us all. You were a special father. I hope now that you can see my heart and what I feel you will continue to watch over me and guide me. I can't help but to cry yet for you . I am so sorry Dad for not being there for you . I know you see that my sorrow is true. I only hope that when my time comes to go home with the good Lord, that he will let you be my guide and that you will take my hand as you did when I was a little girl, and guide me to the paradise that you now are in. Dad keep listening because it is me and all your loved ones that miss you talking to you and letting you know that you are always going to be remembered. God is the lucky one now, he has that special dad, pop pop, husband that we are all going to miss forever. And I know that he will keep you smiling and has his loving arms around you! Till I see you again Dad, don't stop loving us and most of all don't stop watching over us and helping the Good Lord keep us all safe. I love you Daddy, and I will forever be talking to you and waiting for a sign from you that you are around me and shinning your love upon me and the rest of the family.##imported-begin##Susan##imported-end##

“ PopPop,  
I knew you since i was so small  
You were my hero who stood 10 feet tall  
You made it sunny when the sky was grey  
We always had always beautiful days  
Your hands were loving and your hugs the best.  
I am sorry I had more than the rest.  
You always did what ever you could  
You did alot for people that no one else would.  
When we would sit outside and wtach the hummings birds eat  
We would talk for hours witch was always a treat.  
Going to the beach no matter what weather  
Feeling the sand, hearing the waves and watching the sunset  
together.  
We had laughs and times of sorrow  
but you always said theres always tomorrow .  
So now that you have wings to fly  
I know you wouldnt want me to be sad and cry  
I will never say good bye Because good byes are forever  
So heres A hug A kiss And I'll see you later###imported-

“ My poppop was a very special person for those who did not know  
him very well he was the kindess person he has a very good soul he  
touched everyone he came in contact with even if it was just for a  
few minutes. The ones who did not get that chance to meet him lost  
out. He taught me so many things and alot of that I was able to pass  
on to my children . He always said things happen for a reason and I  
think this was his way to be able to watch over us all no matter how  
far we are apart. He will be so missed.###imported-begin###Sharon
